Total	161	12,393	9,215	71,036	147	353	39	19	

\*Note: Areas defined as “possible flood prone areas” in the RFP were developed based on community feedback and have an unknown flood frequency. As a result, the flood exposure results for “possible flood prone areas” are the same in both Appendix Table 2A (Existing Condition Flood Risk) and Appendix Table 2B (Future Condition Flood Risk).
