   There were no member updates provided.

4. **Review and approve the minutes for the meeting held on March 16, 2021.**
   Dave Hall made a motion to accept the Minutes from March 16, 2021, with the request to add the Liason titles to the individuals who are holding these titles. Jay Ornelas seconded the motion. Chairman Martinez called for a vote and the motion was approved except for Gisela Dagnino who abstained because she was not present at the meeting.

5. **Review, discuss and take action on the recommendation from the Executive Committee members for the proposed Technical Consultant finalist.**

Gisela Dagnino made a motion to accept the recommendation for AECOM. Dave Hall seconded the motion. Chairman Martinez called for a vote and the motion was approved unanimously.

6. **Texas Water Development Board (TWDB)- Updates and Presentation**
   Richard Bagans, Planner, TWDB Regional Flood Planning, provided a presentation about the Regional Flood Planning Group’s Responsibilities through the Scope of Work. Mr. Bagans covered Tasks 1 through Task 10. Annette Gutierrez, Rio Grande Council of Governments (RGCOG), informed Mr. Bagans that RGCOG is updating the Hazard Mitigation Plan for five of their six counties. She mentioned the City and County of El Paso are updating their Plan. She asked if he had discussions with the other regions that he covers about how collaboration will be conducted between the two. Mr. Bagans said to be sure there is no duplication of efforts being made and all sources of information are identified to allow the Technical Consultant can work on other items. Chairman Martinez asked to invite every participant possible to our meetings because he explained how difficult it is to tap into FEMA funding if you are not included in the plan. Ms. Gutierrez said she would check with the City/County of El Paso to see where they are in the process of updating their Hazard Mitigation Plan.

7. **Pre-Planning Public Input – Public input regarding suggestions and recommendations as to issues, provisions, projects, and strategies that should be considered during the flood planning cycle and/or input on the development of the regional flood plan (as required per Texas Water Code §16.062(d) and 31 Texas Administrative Code §361.12(a)(4))**
   Richard Bagans covered this item. He informed the group for every cycle moving forward the group will be required to have pre-planning public meetings to allow the public to comment on what items they would like the group to consider moving forward. He provided a general overview of what the flood planning process is about.
Dave Hall asked if the group wants to ensure there is public participation from the entire region, can TWDB make presentations at different locations, such as Alpine? Mr. Bagans said that initiative will be determined by the planning sponsor and the group but TWDB will assist in determining who is the best person to speak on this item. He said it is appropriate and suggested moving the meetings to different locations but it is contingent on what is most feasible. Post pandemic there will be opportunities to have a hybrid meeting allowing for in-person and virtual.

Dave Hall raised concern that the group should do as much as they can to inform the public of this process to ensure they are aware and engaged soon. However, TWDB staff is the best suited to inform these groups because of their expertise. Mr. Bagans reminded the group they will still need to conduct a second pre-planning meeting as requires, so they could look at having the meeting in a different location. Annette was tasked by the group to look at possible locations to include Alpine, Ft. Stockton, or somewhere further east in late May or early June.

Gisela Dagnino asked Annette Gutierrez how soon could the RGCOG secure a contract with AECOM because she is concerned about getting the public on board soon. Annette explained it will be at the May board meeting but the date is not solidified yet. Dave Hall raised concern about the need to secure the contract soon since they are due dates coming up from TWDB based on the conceptual schedule. Richard Bagans mentioned the dates identified are target dates and they are flexible except for the technical memo and the Final Plan. Annette Gutierrez said she would aim for a May 7th board meeting.

Rene Rodriguez mentioned the community of Socorro has had difficulty participating in virtual meetings because of technology. Jay Ornelas suggested the group could utilize Sul Ross University as a possible venue.

8. Consideration of appropriate changes to the Region 14 Bylaws.
Annette Gutierrez asked for the general membership to consider amending the bylaws to 4.1 Filling Vacancies and reduce the deadline for submission of nominations between thirty and forty-five calendar days from the date that public notice was posted to fifteen days. Dave Hall made a motion to reduce the time from thirty and forty-five days to fifteen days. Rene Rodriguez seconded the motion. Chairman Martinez called for a vote and the motion was approved unanimously.

9. Take action to consider adding additional members from interest categories
Annette Gutierrez, RGCOG, informed the group there is an opportunity for them to increase their membership base. She mentioned in the previous meeting the group expressed interest in adding another position for Water Utilities. Rene Rodriguez mentioned his only concern is that the membership does not become lop-sided. Dave Hall made a motion to increase the membership for Water Utilities and the Public. Rene Rodriguez seconded the motion. Chairman Martinez called for a vote and the motion was approved unanimously.

10. Take action to consider adding the International Water Boundary Commission as a non-voting member. Dave Hall made a motion to add the International Water Boundary Commission (IBWC) as a non-voting member as a non-voting member representing the International Water Boundary Commission. Jay Ornelas seconded the motion. Chairman Martinez called for a vote and the motion was approved unanimously. Chairman Martinez informed the group that IBWC internally decided to appoint Delbert Humberson as their representative.
11. Consider posting the River Authority vacancy.  
Gisela Dagnino made a motion to post the River Authority vacancy. Rene Rodriguez seconded the motion. Chairman Martinez called for a vote and the motion was approved unanimously.

12. Update from Liaisons from both Region 15 – Lower Rio Grande Regional Flood Planning Group, Vanessa Rosales-Herrera, and Region 14-Upper Rio Grande Regional Flood Planning Group, Sarah Douglas. Vanessa Rosales-Herrera, who serves as the Liaison to Region 14 from Region 15, mentioned her region is in the same timeline as ours where they just recently approved their technical consultant. Dave Hall asked if our group should be also coordinating with other surrounding planning besides Region 15. Richard Bagans explained we are only required to liaise with Region 15 since there is an Upper and Lower to the region.

Ms. Sarah Douglas, who serves as the Liaison to Region 15 from Region 14, was unable to attend the most recent meeting but mentioned she will be able to attend future meetings.

Annette Gutierrez informed the group that she was able to secure a quote from the Rio Grande Council of Governments’ web developer. She mentioned the quote is for $5,500. When including the indirect cost rate the total cost for this effort is $7,219.90. Ms. Gutierrez explained the contributions that will be made from El Paso County Water Improvement District #1 and El Paso Water Utilities will cover these costs, based on her understanding that the website creation was unallowable. Chairman Martinez reminded the group that contributions like the ones made by these two entities will allow the Rio Grande Council of Governments to administer the program. Gisela asked how often would they make the contributions. Chairman Martinez mentioned if this group is to follow the Water Planning Group, the dues would be yearly. Ms. Dagnino also mentioned that part of AECOM’s proposal included public relations activities from Barracuda Public Relations firm. Chairman Martinez agreed they would be doing this function but also mentioned it would be good for the RGCOG to have some of their equipment if needed. Ms. Gutierrez also mentioned to the group she would work with the Chair to see what kind of dues structure can be created for the future. Richard Bagans informed the group that this cost is an allowable expense. Annette Gutierrez then informed the group that she will not be asking El Paso Water Utilities for the previously mentioned funding. Gisela Dagnino asked Annette to still send an invoice to them to assist in starting the fund.

14. Discussion of Old Business  
Dave Hall requested that AECOM should be made aware of the suggested dates from TWDB for the tasks mentioned in the Scope of Work. Dave reminded the group Tasks 1-3 should be completed by July of 2021. Gisela Dagnino informed the group that El Paso Water Utilities has worked with AECOM previously and said they always stay on task on finish the work on time.

vacancies for the positions mentioned, pre-planning, discuss any old business, receive updates from both liaisons and have AECOM present to the group.

2. Recognition of guests
   Dave Hall asked if there were any guests who would like to be recognized at this time. There were none.

   Sarah Douglas informed the group there was no update at this time.

7. Discussion on membership from subcommittees as it relates to a potential quorum of the flood planning group.
   Annette Gutierrez, Rio Grande Council of Governments (RGCOG) asked for Richard Bagans, Texas Water Development Board (TWDB), to provide an update on behalf of the agency before the group discussed the membership of subcommittees. He mentioned AECOM submitted their tech memo to TWDB prior to the deadline. TWDB has deemed it administratively complete and has allowed AECOM to move forward with Task 5. He also reminded the group the next deadline is March 7th where extension deliverables are due pertaining to geo-database files. He mentioned the contract amendment for additional funds is being processed by the Board. The Officers election will happen at the second meeting, part of bylaws. Last, he mentioned there will be a Chairs Conference Call in March. The Legal Division will provide an Open Meetings Act overview to the group.

   Richard Bagans next discussed the membership from subcommittees as they relate to a potential quorum of the flood planning group. Richard stated, after receiving guidance from TWDB, during subcommittee meetings, the number of planning group members participating may be so many that a quorum of the flood planning group may be established. He noted our region has a large number of members participating but they are being posted as subcommittees. He offered two options. First, if the group wants to continue having subcommittees, they may do so but limit the number of participants so that a quorum of the full membership does not exist. Secondly, the group may forego the subcommittees, have a flood planning group meeting and limit the agenda to specific items related to the topics identified from the subcommittees. Annette Gutierrez asked if the group if they would be open
to having their March meeting be a General Flood Planning Meeting rather than a Subcommittee 2 meeting. The group conferred with AECOM and they agreed it would be appropriate to move forward in this manner.

Next they discussed Subcommittee 1, 3, & 4. AECOM stated there would no longer be meetings for Subcommittee 1 since the goals were met. AECOM stated they anticipated having a meeting for Subcommittee 3 in late February and Subcommittee 2 in the middle of March. Their focus over the next several months will be for those two subcommittees. He also mentioned the thought for Subcommittee 4 was to do away with it and treat the process as a workgroup where AECOM will reach out to individuals separately to gather the information and then present it to the group.

Annette summarized to the group that the February 28th meeting will focus on Subcommittee 3 primarily and the next general meeting will be between March 14-18 to focus on Subcommittee 2.

Dave Hall asked for AECOM to consider forming a small group for Subcommittee 4 if they are in need of gathering more responses, then convening a small group may be beneficial.

8. Discussion and potential action regarding administrative expenses to be submitted to the Texas Water Development Board for reimbursement.
   Jeff Bennett made a motion to approve the expenses as presented. The total amount requested from AECOM was $154,247.71, for the period of October 1, 2021-December 31, 2021. Omar Martinez seconded the motion. Dave Hall called for a vote and the motion was approved.

9. AECOM General RFP Updates
   - Upcoming Open House Meetings in Pecos and Presidio
   - Update on Region 14 Fathom 3m Flood Risk Data
   - 2022 RFP Road Map/upcoming meeting schedule

Bryan presented agenda items 9 through 11 to the planning group.

12. Discussion and action to vote for approval of recommendations from Subcommittee 3 (FMEs/FMSs)
    Sal Masoud made a motion to approve any refinements to the list of FMEs and FMSs included in the 1/7/22 Tech Memo resulting from discussions in this subcommittee meeting to recommend to the URG Regional Flood Planning Group. Omar Martinez seconded the motion. Dave Hall called for a vote and the motion was approved.

13. Discussion and action to vote for approval of recommendations from Subcommittee 2 (FMPs)

- Approval of applying additional funding of $58,000 toward Task 4, as needed for recommendation to RFPG.
  Levi Bryand seconded the motion. Dave Hall called for a vote and the motion was approved.

1. Welcome and call to order
Chairman Omar Martinez welcomed the group and received confirmation that a quorum was present. The meeting started at 1:34.

2. Public Comments
Chairman Martinez asked if there were any public comments from the public. There were none.

3. Local Flood Projects
Chairman Martinez announced three items. The first was a grant/loan of 10 million dollars that was awarded to the City of Socorro by the Texas Water Development Board through the Flood Infrastructure Fund program. City Development Director, Alejandra Valadez, explained the funding will go to address the Sparks/Arroyo storm drainage project, as well as for channel improvements, and a basin for the onion field area.

Chairman Martinez also announced that Hudspeth County received approval from Congressman Tony Gonzales through his appropriations request for FY 23. For Hudspeth County, the funding would be used to establish a county floodplain management program to address the flood risks associated with rapid urbanization, provide detailed engineering planning and construction funds for addressing current flood risks identified in a 2019 Colonia Area Plan. He thanked AECOM for all of their assistance for Hudspeth County’s request.

Also, through Congresswoman Escobar’s office, through their appropriations request, EPCWID#1’s project was selected to concrete line 1 mile of the Franklin Canal.

Finally, Chairman Martinez mentioned that through the Far West Texas Water Planning Group and Flood Planning Group, these groups are assisting smaller communities to apply for funding. He mentioned many of these communities are limited in their building capacity. Dave Hall asked Reem Zoun, Flood Planning Director, to consider additional funding for communities to tap into technical assistance from other organizations who can assist in preparing applications.

4. Review and approve the minutes for the meeting held on April 21, 2022.
Dave Hall made a motion to accept the Minutes from the Upper Rio Grande Flood Planning Group meeting held on April 21, 2022. Gisela Dagnino seconded the motion. Chairman Martinez called for a vote and the motion was approved.

5. Discussion and potential action regarding administrative expenses to be submitted to the Texas Water Development Board for reimbursement
Gisela Dagnino made a motion to accept the administrative expenses of $231,824.42, from AECOM for the period of January 1, 2022 through March 4, 2022, to the Texas Water
Development Board. Dr. Zhuping Sheng seconded the motion. Chairman Martinez called for a vote and the motion was approved.

6. Updates from Richard Bagans, Texas Water Development Board (TWDB)

Richard reminded the group that TWDB has submitted their second set of informal comments for the Tech Memo, to the regions. He stated the comments are merely suggestions on how to the regions can make the plans better. He also said that on May 24, TWDB held a Technical Consultants Call. During their discussions, it was suggested the group meet one more time in late June to discuss any pending final items prior to submitting the draft plan. Richard also said there would also be a Chair’s Call on May 26, where the regions will be discussing what is occurring in their groups. He reminded everyone, the Chairs Call is held quarterly.

He also informed the group that TWDB has executed the contract amendment with RGCOG for the $666,400, to pay for the additional tasks. He said depending on what the group decides, TWDB will assist RGCOG in submitting a budget memo to identify the revised amounts dedicated to the additional tasks.

Finally, he reminded the group, when scheduling upcoming planning group meetings, the group must have a public meeting where public comments will be accepted on the draft plan. The notice requirement for this meeting is 30 days prior and public comments must be accepted up to 30 days after it is presented. The plan must be located in three physical locations. The group can vote to submit the draft plan before August 1st, 2022. However, it is suggested the public comment meeting should happen either in August or September to allow for any of these comments to be incorporated into the final Plan. These next two months will be the most content-heavy months where the Technical Consultant will be releasing the Chapters for the group to review.

Chairman Martinez asked TWDB is already looking at starting up the flood planning process. Richard said it will start up quickly after the State Plan is approved.

7. Presentation from American Flood Coalition

Liz Cassin, Senior Outreach Associate, started the presentation. She thanked the flood planning group for allowing the American Flood Coalition (AFC) to present. She then turned over the presentation to Chase Kronzer, Texas Director for the American Flood Coalition. Mr. Kronzer informed the group that the AFC is a 501 ( C ) 3 nonprofit organization and nonpartisan coalition advancing solutions to flooding and sea level rises. The organization has over 280 members nationwide. They are active in 21 states, including Texas. He mentioned the AFC has identified four pillars for coastal and inland solutions. These solutions include the economy, communities, rebuilding, and the military. Mr. Kronzer also said that AFC’s offers its members education guides, tools for effective communication, networks of leaders on flooding, competitive local resilience pilots, and offers a platform for advocacy and education. Most importantly, he mentioned on the AFC’s website is the flood funding finder. This tool breaks down federal grant and technical assistance programs best suited for flooding and se
level rise initiatives. He encouraged everyone to review their information and be prepared to apply for funding that is going to be made available through the infrastructure bill. Finally, he informed the group that any city, county or water district can join the AFC and become a member at no cost. Chairman Martinez inquired if the flood planning group can become a member and Mr. Krozner said he would investigate if that is possible.

1) Subcommittee 1 Chairman Dave Hall welcomed the group.

2) Approval of Minutes from September 30, 2021. Omar Martinez made a motion and Levi seconded. Subcommittee 1 Chairman Hall called for a vote and the motion was approved.

3) Bryan Blaisdell provided Subcommittee 1 with a roadmap for the group where he highlighted all items that he would discuss. He mentioned the subcommittee could decide on recommendations today for minimum standards and that would give RCGOG enough time to post by October 25 and have the URGFPG vote on November 2nd. He also mentioned the Goals could be recommended by the subcommittee at the next meeting, post the notification by November 15, then have the URGFPG vote on November 30.

4) Bryan next presented on the differences between the URGFPG Minimum Standards vs. Goals. Subcommittee 1 Chairman asked Bryan what will happen to communities that do not meet the standards in terms of future funding. Bryan explained there are a number of flood funding sources that do not require communities to meet the standards. This requirement will only affect those who are interested in submitting projects to the TWDB after adoption of the plan. Bryan also laid out that communities who don’t meet the standards today could use that as an incentive to adopt and apply next go around. Chairman Omar Martinez asked if the group adopts the minimum standards and communities who do not meet the minimum but apply to the Flood Infrastructure Fund (FIF), will that preclude them from receiving funding? Bryan stated it was his understanding that it would. Richard Bagans, TWDB, provided more clarification to the question. He said the group can adopt the minimum standards and the communities could then use this information as a resource to them when considering flood ordinances or if you choose to adopt the minimum flood standards, all Flood
Management Projects (FMPs) will have to adopt those standards to be included in the plan. The FIF is a potential future financial vehicle that may fund FMPs from the plan. He could answer how competitive a project would be if submitted without adoption of minimum standards.

Bryan also reminded the group of the pros and cons of adopting and not adopting the minimum standards. Bryan stated AECOM would like to get a recommendation from the subcommittee whether the minimum standards should be adopted or not. AECOM would also like a recommendation from the subcommittee chooses not to recommend minimum standards that they recommend standards that do not tie anything to the projects serve as a way for the group to serve as a resource and state what they would recommend.

5) Bryan next covered a review of the National Flood Insurance Program (NFIP) Requirements/CRS Program. He mentioned about 78% of counties in the region participate in the program. He explained the NFIP could be used as a source for the minimum standards. NFIP is a way for residents to access federal flood insurance. If incorporated communities participate but the County does not, there will not be considered as participating. He mentioned what communities would be impacted if minimum standards were incorporated. He went on to explain more information about the NFIP. Subcommittee Chairman Hall asked how is the SFHA designated? Bryan explained they are approved by FEMA ultimately. He referenced the process El Paso County is going through right now with FEMA is what other communities will experience and how an SFHA will be designated.

6) Bryan next covered the stakeholder survey results. As of last week, one hundred surveys were received. Forty percent of the surveys came from community representatives. The survey asked if the minimum standards should be adopted and 77% of the community representatives. He then covered other items within the survey as presented in the slides that highlighted support of following minimum standards and identified potential flood-related issues of concern. They were:
   i. Insufficient land use standards
   ii. Development within or near flood prone areas
   iii. Increased runoff due to development

7) Bryan next gave an overview of the Subcommittee Survey Results. He highlighted the three top responses to the question of evaluating potential flood-related needs as they pertain to Region 14. The top answers were:
   i. Communities need better defined floodplain or land use standards
   ii. Counties need authority to regulate land use
   iii. Region-wide need for minimum floodplain standards

8) Finally, Bryan laid out discussion topics for the subcommittee that included:
   • URGFPG Minimum Floodplain Management or Land Use Standards — Including Subcommittee Recommendations to RFP during November 2 RFP General Meeting
   • URGFPG Flood Mitigation and Floodplain Management Goals (Short-Term/Long-Term) — Draft goals to be posted on URGFPG website by November 16 and voted on by RFP during November 30 General Meeting

9) The group agreed to meet on November 4, 2021, at 1:30 pm for its 3rd meeting.

8) Prior to making a motion to adjourn, Chairman Dave Hall asked if anyone from the public had any comment to make. There being none, he asked for a motion to adjourn. Omar Martinez made a motion to adjourn at 11:46 am. Gisela Dagnino seconded the motion. Dave Hall called for a vote and the motion was approved.
11/04/2021

Date

Subcommittee 1 Chairman, Dave Hall
1) Subcommittee 1 Chairman Dave Hall welcomed the group at 1:35.

2) Approval of Minutes from September 30, 2021.
    Gisela Dagnino made a motion to approve with the correction of the previous minutes being noted as September 30, 2021. Javier Acosta seconded the motion. Subcommittee 1 Chairman Hall called for a vote and the motion was approved.

3) Bryan Blaisdell provided Subcommittee 1 with an overview of the technical issues the subcommittee discussed at the last meeting, as presented in slide 2. He next provided an updated roadmap highlighting important dates. These dates include:
   - Adopted RFPG minimum standards/goals to be included in Technical Memorandum (due to RFPG on Dec 3rd)
   - Goals + Recommendations for Minimum Standards/Adoption of Minimum Standards
   - Subcommittee 1 recommendation – Nov 4 + Nov 11
   - Public notification – Nov 15
   - RFPG adoption - Nov 30

Bryan next presented the updated draft of the Short-Term/Long Term Goals. He asked the subcommittee if there was any additional feedback they wanted to give at this time. Bryan next discussed the yellow highlighted items shown on the document. He explained they would be defined by the next subcommittee meeting and they will go to a vote. The focus of today’s meeting is to complete the list of goals and next week the subcommittee will define the criteria used to measure those goals. He then covered agenda items 4-8. Prior to participating in a series of polls to verify the preference of goals from the subcommittee, Subcommittee Chairman Hall made some statements
about Region 15’s Goals. He cross walked their goals against Region 14’s. Nearly all of the goals were similar with the exception of the standards. He also said he will be inquiring with the group if they want to make any changes. Bryan next presented the group with the new goals that included Goal 20 to 25. For Each goal, Bryan polled the subcommittee whether they should consider the goal and what the time-frame for the goal should be. Bryan made the changes to the goals as suggested by the subcommittee members.

The group next talked about the potential recommendations for minimum standards/adoptions of minimum standards. He asked the subcommittee if the group should require specific minimum standards. When polled, the majority of the subcommittee voted yes. Bryan then explained what the implications are if standards were adopted, the communities who could not meet them, would not be able to submit FMEs, FMPs, or FMSs, at least in the first cycle. Gilbert Saldaña then asked if the group could go forward with recommendations only for this first cycle. Bryan said they could. A second poll was conducted and the subcommittee unanimously were in favor of recommendation. When polled the majority of the subcommittee voted the recommendation of selecting NFIP minimum standards and the adoption of higher than NFIP-minimum, standards. Based on Bryan’s presentation and comments from the subcommittee, Bryan stated he would put together the updated document.

4) Gisela Dagnino made a motion to adjourn at 2:59 pm. Gilbert Saldana seconded the motion. Subcommittee 1 Dave Hall called for a vote and the motion was approved.

Subcommittee 2 Meeting Minutes

(Identification & Evaluation of Potential FMPs, Task 4)
1. Chris Wright, AECOM, welcomed the members of Subcommittee 2 and asked if any of them had any interests in any specific Flood Mitigation Projects (FMP). Jeff Bennett mentioned he had interest in two FMPs. He reminded everyone of the 2008 flooding in Presidio and Ojinaga, Mexico out of the Rio Conchos. He explained the flooding occurred due to sediment, infilling and loss of conveyance capacity. He said he was interested in an environmental flows program. The second category of strategies would be nature based solutions that lifts the stream functions such as recharge and habitat maintenance floodplain connectivity. AECOM asked if Jeff Bennett could provide them with any studies that he may have to assist them. Jeff Irvin also mentioned these concerns should get cross referenced in Subcommittee 3 as well. Jeff Bennett also mentioned the National Park Service has conducted many studies for over fourteen years. He also said he could send Steven Lance’s contact information from the Park Service.

2. Chris Wright provided the objective of the Subcommittee. He stated this committee is for task 4B(c) – Identification and Evaluation of Potential Flood Management Projects, which will cover the following:
   - Representative of entire region
   - Some meetings will focus on just the Rio Grande Main Stem
   - Meeting topics can be identified from agendas
   - Members can introduce any related topics from throughout region
3. Chris Wright next provided a presentation of technical issues. He provided a definition of Flood Mitigation Projects (FMPs) with examples, stakeholder coordination for FMPs in the planning stage, summary of selected planning documents to be used for El Paso County FMPs, and to have a discussion of planned flood projects that potentially have multiple benefits.

4. Christine Westerman from SWCA provided an overview of the Jurisdictional Waters of the U.S. and how it applies to the planning group’s projects. She reminded the group as they begin to do the environmental review for flood strategies, they will need to review impacts to jurisdictional waters, primarily wetlands/waters. As part of the natural resources review, projects will be evaluated for their potential to affect jurisdictional wetlands/waters that are GIS-based. The projects will also be reviewed to determine potential U.S. Army Corps of Engineers (USACE) permitting requirements. The USACE permitting may be affected by impacts to other sensitive resources (e.g., federal endangered species or significant cultural resources). She also provided an explanation on the 2020 Navigable Waters Protection Rule that significantly reduced waters protections (exception for ephemeral streams), that was remanded in August 2021. She said this rule change was particularly significant in arid environments and affected status of arroyos. In June 2021, there was a proposed Intention to revise the definition of “Waters of the U.S.” and is likely to revert to pre-2015 regulations. She said this regulatory environment will continue to evolve over the course of the flood planning cycle.

5. Confirm chair of subcommittee
   Dave Hall made a motion to have Javier Acosta serve as the Chair for Subcommittee 2. Gisela Dagnino seconded the motion. All voted in favor and the motion carried.

6. Tentative future meeting dates for subcommittee
   The subcommittee agreed to meet November 4, 2021, at 10:00 am for the second meeting.

7. Javier Acosta made a motion to adjourn the meeting and Gilbert Saldana seconded. All voted in favor and the motion carried.

1. Subcommittee Chairman Javier Acosta welcomed the group at 10:05 am.

2. RCGOG- Approval of Minutes from October 13, 2021
   Jeff Bennett made a motion to accept the Minutes from October 13, 2021. Gilbert Saldaña seconded the motion. Subcommittee 2 Chairman Acosta called for a vote and the motion was approved.

3. AECOM- Introductions of Subcommittee Members and their interests in any specific FMPs
   Chris Wright started the presentation. He asked if anyone from the public could introduce themselves if they hadn’t already. Joanna McKenzie, County Administrator for Hudspeth County introduced herself.

4. AECOM- Objective of Subcommittee
   Chris Wright, AECOM next outlined what items were going to be covered during the meeting. He then turned the presentation over to Jeff Irvin, AECOM. First, Jeff explained to the subcommittee what the proposed process was through a flowchart highlighting where they could obtain potential projects, what entities do they get them from, determine if there is a negative impact, and determine if the project is feasible.

   Dave Hall asked if the project is not fully defined, can the group still submit the projects to Texas Water Development Board (TWDB). Jeff Irvin stated they can still be submitted but they will not be as competitive as other projects that are complete when TWDB is considering who to fund. Jeff Irvin said
that one way to address this issue is to state that a Flood Management Evaluation (FME) can be requested. Gilbert Saldaña asked if there was funding for that to occur. AECOM stated there may be opportunities to conduct some with the additional funding that is coming to the region.

Jeff Irvin next talked about the process that was used for the City and County of El Paso. From this discussion, AECOM next posed a set of questions to the subcommittee to consider for selecting potentially feasible projects. Gisela Dagnino asked if there may be a consideration to take into account the heavy burden placed on residents during construction. Jeff mentioned this concern would be covered under the permit complexity with street utilities. The subcommittee agreed to go forward with the three questions presented.

Clint Kimball next provided a recap of the County’s Storm water Master Plan. Chris Wright then presented potential projects from USIBWC, EPCWID #1, TXDOT and other parts of the region. Jeff Irvin recapped for the subcommittee what conclusions were made for coming to a process. He requested for the subcommittee to consider voting on the process for projects for the City of El Paso’s Master Plan, El Paso County’s Master Plan and for other projects as presented by the AECOM team. Omar Martinez made a motion to accept the process for all three categories mentioned. Jeff Bennett seconded the motion. Subcommittee 2 Chairman Acosta called for a vote and the motion was approved.

5. Tentative future meeting dates for subcommittee
Dave Hall asked how many of the city and county projects have already been funded through other sources. Gisela Dagnino and Gilbert Saldaña confirmed there were a few that are funded for this fiscal year. Gisela Dagnino asked for all other projects to be left on the list. Dave Hall asked for them to get together with AECOM to confirm which projects to take off the list. The subcommittee confirmed that a date was already set for the next meeting based on previous polling. The meeting will be on November 15, 2021, at 3:00 pm. Jeff Irvin reminded everyone the bulk of the work has already been completed by the subcommittee in terms of developing the process. However, the subcommittee will still need to figure out what scoring system will be implemented for the other projects.

11. Adjourn
Omar Martinez made a motion to adjourn at 11:48 am. Jeff Bennett seconded the motion. Subcommittee 2 Chairman Acosta called for a vote and the motion was approved.

Meeting Minutes  
Region 14 URFPG-Subcommittee 3 Meeting  
Friday, October 22, 2021 at 10:00 am

1. Subcommittee 3 Chair Sal Masoud welcomed the group.

2. Recent progress related to issues discussed in previous Subcommittee 3 meeting

3. Discussion of Potential FMEs and FMS

   Chris Wright provided the agenda to the group and covered what would be discussed the meeting. These topics included the following:
   - Recent Progress Concerning Previous Subcommittee 3 Meeting
   - Discussion of Potential FMEs and FMSs
   - Communities at risk of flooding with outdated or no FEMA Floodplain Mapping
   - EPCWID1 issues related to flooding
   - FMSs related to Environmental Flows, Floodplain Connectivity, & ASR
   - Discussion of experience in recent historic flood events
   - Other?
   - Tentative future meeting dates for subcommittee

   Chris reminded the group the previous meeting covered the Rio Grande but for this meeting, they would not be discussing it. He next covered what the goals of the meeting is. He said they were twofold. The first one is to talk about the process for selecting FMEs and FMS. He said at the next meeting the subcommittee will need to vote on them to recommend to the full group. The agenda needs to be posted by November 15, 2021 and the general membership meeting will be November 30, 2021. These items need to be voted on to allow for the Tech Memo to be completed. The second is to learn more about the important flood issues that have occurred in the region. Today AECOM will focus on some of the storm events that happened in El Paso since it is one of the most populated areas but also will focus on other places as well. The subcommittee will need to think about establishing the process and to be learning about the issues.

• Rio Grande H&H modeling FME
• FMS modeling approach related to levees
• Coordination call with Fathom
• Levee modeling assumptions
• Refined “cursory floodplain dataset” expected end of October per TWDB Coordination with TWDB
• Levee modeling criteria
• USIBWC provided hydraulic model downstream of American Dam (under review)USIBWC provided river and upstream reservoir gage data (under review)

Next he discussed the potential of FMEs and FMSs. He reminded the group, an FME is a flood study of a specific, flood-prone area that is needed in order to assess flood risk and/or determine whether there are potentially feasible FMSs or FMPs. A strategy is a plan to reduce flood risk or mitigate flood hazards to life or property but it may or may not require associated FMPs to be implemented.

He suggested the subcommittee may want to consider those counties where they do not have FEMA data; there are four in our region. He walked the subcommittee through the steps that AECOM will use to select where they may need a study out of the four, with the main criteria being heavily populated. Chris asked the group if they want to focus on the 100 or 500-year flood. Chairman Martinez said he would be fine keeping with the 100-year flood for the rural areas with the exception of the City of Presidio. He would prefer for Presidio to utilize the 500-year flood. There was discussion on whether it is financially feasible to construct projects with the 500-year flood. Dr. Borah also mentioned that the project would also trigger IBWC to notify Mexico that they are not deflecting water to Mexico for anything over 25 years. Gabe Duran agreed that Presidio is a unique area due to the two nearby rivers and mentioned how effective the palm method was during the 2008 flooding. The subcommittee agreed that a study should be done on the coincidence analysis. Gisela also asked for AECOM to look at the 100 but also analysis the 500 to see how high the water level gets for bridges, culverts and so on. Chairman Martinez also mentioned TXDOT made recent improvements to the port of entry bridge and rail. Flood capacity may have been addressed. Dr. Borah mentioned the TXDOT bridges were protected for a 100-year flood. Chris asked Dr. Borah if he could provide them the process IBWC uses to define the process for projects along the levee. Dr. Borah stated the participating agency will provide the design document and hydraulic study to IBWC. IBWC will then share it with Mexico. The same process is taken on the Mexican side.

Chris next covered future condition analysis. Chairman Martinez mentioned the EPCWID #1 is experiencing increased flows coming from the northern side of the County to the lower valley. This does have a direct impact on the surrounding communities. It goes beyond what the normal subdivision ponding accounts for. He would consider a future condition analysis for the areas mentioned. Joanna McKenzie mentioned there is increased growth in Ft. Hancock, Hudspeth County. Chris asked if the two could provide a rough map of the general area they are concerned with. Chairman Subcommittee 3 Masoud agrees with comments made from Omar. Gisela states the same is occurring in El Paso in the mountainous areas. Sal suggested perhaps different kinds of Inlets can be considered for the City of El Paso as well. Chris suggested the review of Inlets would be a strategy. Dr. Borah also mentioned the creeks along the river brings a lot of sediment to the river. Chris asked Dr. Borah to provide a map of where sediment is being brought to the river. Chris then covered the rest of the slides that highlighted resources for developing FMSs. Delbert reminded the group that some strategies created along the river may affect the treaty with Mexico, so the group should take that into consideration.

Chairman Masoud asked Chris Wright if the group always shoots for higher standards than Mexico, it will always flood on the Mexican side and not affect the U.S., how do we make that assumption? Chris said they have asked those questions to the TWDB. Chris said the subcommittee could have a separate
meeting to discuss the items presented to TWDB. Chairman Masoud asked Gabe Duran if he recalled if there was a breach of the Mexican side of the levees in 2006 and he confirmed there were but Mexico had to mitigate the situation by setting up a bypass to pump water out of the retaining basins nearby. He said if this would not have occurred, downtown El Paso may have been flooded. Gabe Duran provided several other examples and made referenced to several areas managed by the El Paso County Water Improvement District 1 (EPCWID #1). Chairman Martinez stepped in and agreed with Mr. Duran’s listing but also noted that he and Dr. Blair have identified five specific areas and mentioned he would email the subcommittee about them. Delbert Humberson stated the IBWC should be able to provide elevations and coordinates of the high water marks.

Chris mentioned Dr. Blair was going to cover flood issues for EPCWID #1 and Jeff Bennett was going to discuss FMSs as they relate to environmental flows, but because neither was able to attend and for the sake of time, Chris jumped into the discussion of experience in recent historic flood events. He reminded the group of the flooding in El Paso in 2006, the flooding in Presidio and Ojinaja in 2008, and El Paso flooding in 2021.

He provided the group with a list of potential dates that they should all be aware of in terms of recommendations to the group, voting, posting and preparing for the Tech Memo. He inquired if Gonzalo Cedillos was in attendance and he confirmed he was. There were also others from El Paso Water as well as other organizations as well. However, since the meeting was nearly over, the group of presenters would speak at the next meeting. Jeff Irvin presented the list of questions AECOM will be asking at the next meeting.

4. Approval of Minutes from September 30, 2021
Annette Gutierrez requested to table this agenda item because the heading of the Minutes states subcommittee 1. Ms. Gutierrez requested to present these Minutes at the next meeting. Gisela Dagnino made a motion to table this agenda item. Omar Martinez Seconded the motion. Subcommittee 1 Chairman Masoud called for a vote and the motion was approved.

5. Tentative date for next meeting
The group decided to meet again on November 10, 2021 at 10:00 am. Chris Wright explained the meeting would take at least three hours to conduct.

6. Gisela Dagnino made a motion to adjourn the meeting and Omar Martinez seconded the motion. All voted in favor and the motion carried.
